ADJUSTMENT OF BALAKLALA SHARES

In order to ascertain how far the creditors went to drive a hard bargain with the Balaklala stockholders which resulted in giving creditors a call of 75,000 shares of treasury stock of the First National Copper Company at \$5.50 a share, assessment paid, the largest creditors have been interviewed by parties in interest.

McCormick & Co. of Salt Lake City, the Crocker Bank of California, the Windsor Trust Company of New York and the Guggenheims admit, it is said, that they signed an agreement to take the 75,000 at \$2.50, but claim they did so at the request of the Balaklala interest and that they have since assigned their rights in this 75,000 shares to Mr. Barbour, so that they will not benefit by such issues, that all they demand of the Balaklala company is a repayment of their loan with 6 per cent interest.

Some large interests in Boston in the Balaklala company will refuse to pay their assessment unless this agreement to sell 75,000 shares of treasury stock at \$2.50 a share is abandoned. The 75,000 shares of First National Copper stock in the treasury of the company would be an insurance that stockholders would not have to be called upon in the future for any further contribution in the way of assessment, as at \$10 a share this stock would be worth \$750,000 and could possibly be sold at some later date at a higher price.

It is argued that if this stock is now sold for \$2.50 there would be a possibility of further assessment of Balaklala stockholders in case present financial requirements are again underestimated.

Thursday was the last day stockholders had to deposit their stock and pay their first assessment of 50 cents a share, but it is understood that an extension will be granted.—New York Commercial.
